

# PROTECT YOUR HEALTH IN PROSPERITY

## Water Filtration System

Applicable Water Source: Municipal Tap Water

Filtration Accuracy: 0.5  $\mu$ m

Applicable Environment: 5 - 45°C

Applicable Water Pressure: 0.1 - 0.4 Mpa

Service Life: 8 - 12 Months

Approval Number: Yuewei Water (2018)-2-№0971

Management system certification

Environmental management system certification

Pass the certification of occupational health management system

Conforms European

Restriction of Hazardous Substances

# CARTRIDGE PROFILE

## PP cotton.

Preliminary filtration of rust and sediment.  
Red worms, suspended impurities, etc.

## Activated carbon.

Adsorption of heterochromatic odor  
and residual chlorine. Chloroform,  
carbon tetroxide

# ONE-PIECE INTEGRATED FILTER ELEMENT

Using Quick-Twist fast technology, one spin,  
one twist.

# SIMPLE AND QUICK INSTALLATION

# PRODUCT LIST

UF System x 1

Braided tube x 2

Accessories bag x 1

# PRODUCT PARAMETERS

Product model: M8-1

Filtrating accuracy: 0.5um

Effluent flow: 400L/H

Product size: 130\*110\*345mm

Work pressure: 0.1~0.4MPa

Connector size: 3/8"

Applicable temperature: 5°C~45°C

Applicable water quality: municipal tap water
