

ULTRAFILTRATION WATER PURIFIER

Preserve minerals

WE ARE ULTRAFILTRATION MACHINES WITH DIFFERENT FUNCTIONS

High throughput
400L/H

Integrated
waterway

Tankless design
save space

Mineral retention
healthier

Remove bacteria
More assured

Remove residual
chlorine

Easy installation
Peace of mind

6.7L/min
Water making speed
Full glass of water in 2S

9600L
Rated total water intake
Faster water output

The speed of the ultrafiltration machine is 6.7L / min,
and one cup only takes 2S.

UF ULTRAFILTRATION MEMBRANE FILTER

Filter out harmful substances, retain beneficial minerals

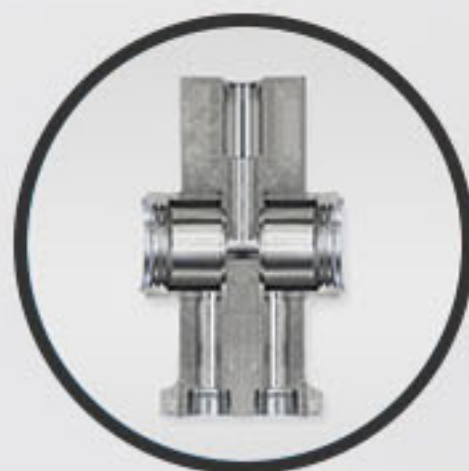

LEAD-FREE THROUGHOUT, PREVENT HEAVY METAL PRECIPITATION

Lead-free faucet design

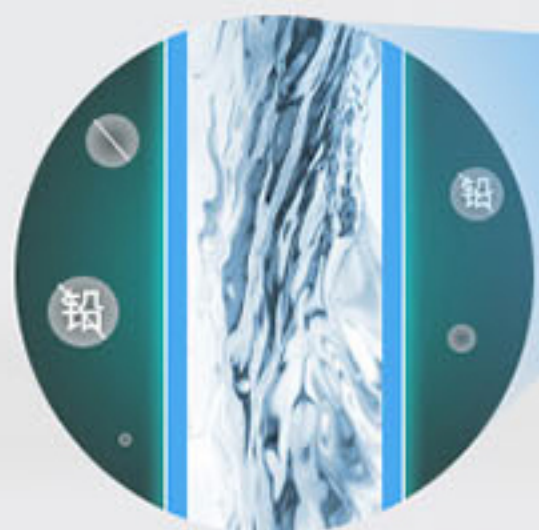

Ensure water quality and protect children's healthy growth

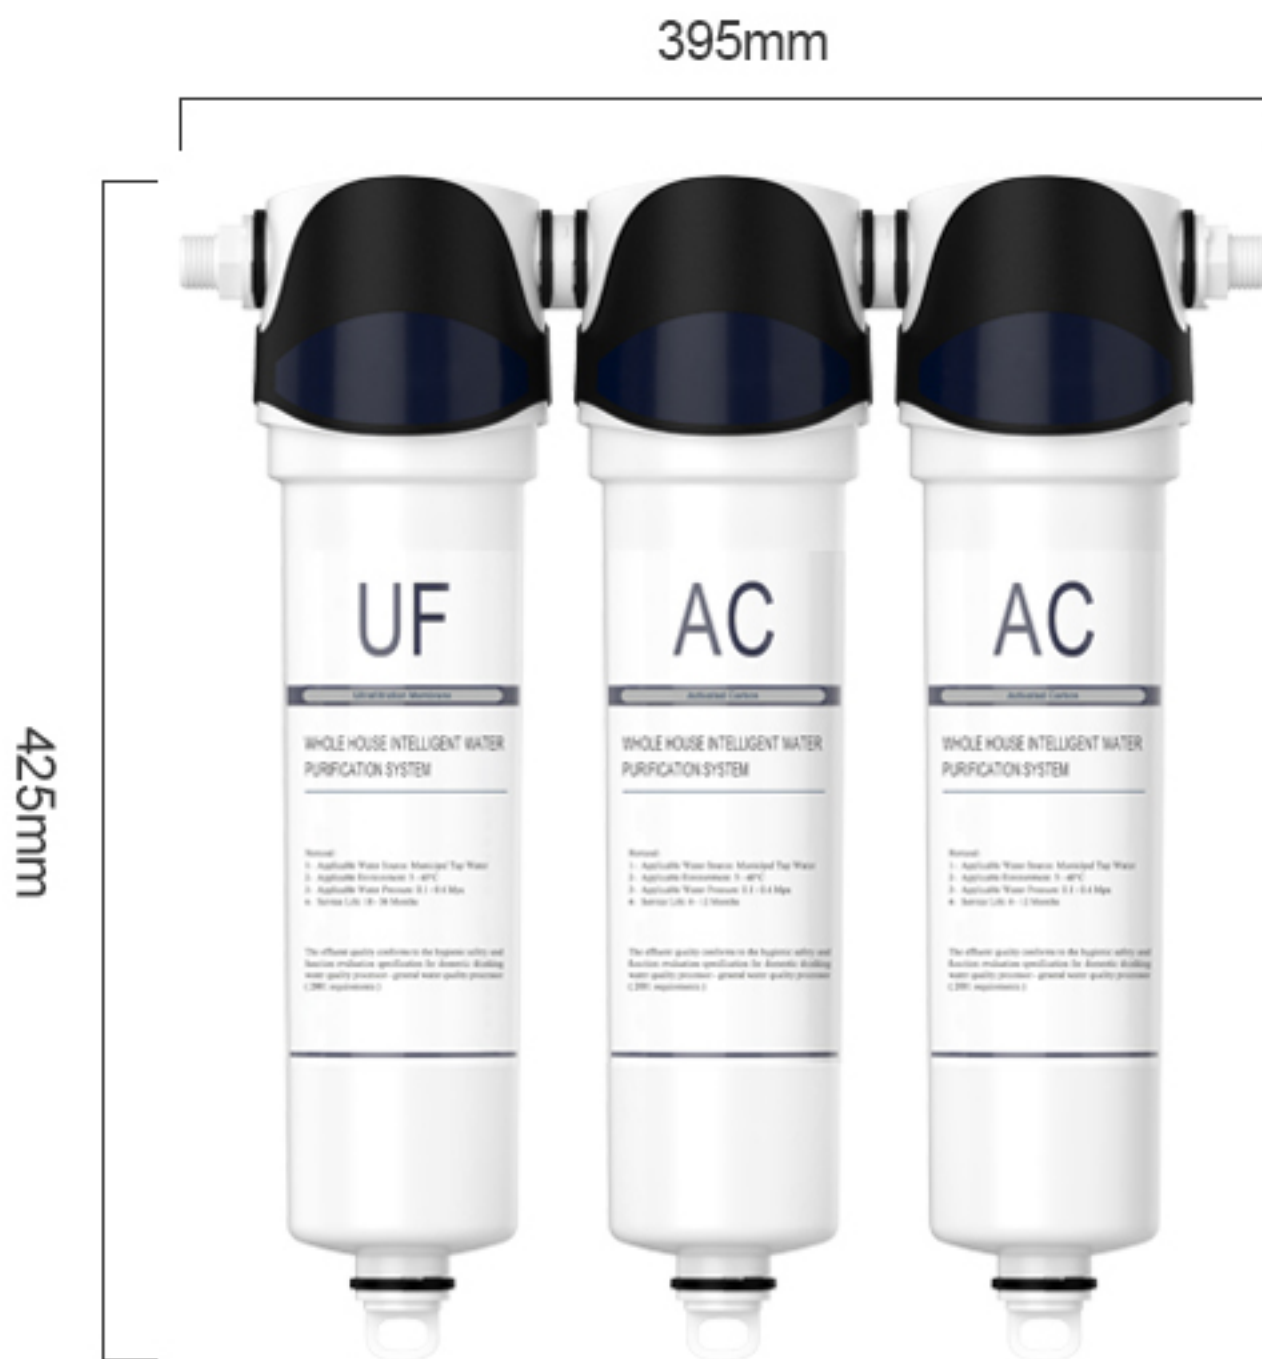

Ordinary faucet profile

Lead-free faucet profile

PRODUCT PARAMETERS

Pure water flow:

400L/H

Working pressure:

0.1-0.4Mpa

Filtration accuracy:

0.01um

Item size:

395*100*425mm

Operating temperature:

5-38℃
